LinkedIn: www.linkedin.com/in/richa-rastogi-developer | **GitHub:** <https://github.com/Richa-Rastogi25>

A postgraduate with an academic background in E-Commerce and Information Technology, driven by a passion for thriving in the dynamic world of e-commerce. I have successfully completed a professional course in Java Full Stack Development, further strengthening my technical expertise. Highly motivated to learn, contribute meaningfully, and grow within a collaborative team environment.

"I believe in achieving results aligning with objectives, mission and vision of the organization for a holistic growth of self along with the organization."

TECHNICAL SKILLS

Programming Languages: Java, JavaScript

Web Technologies & Frameworks: HTML, CSS, Bootstrap, React.js, Spring Boot

Database: MySQL

IDEs: Visual Studio Code, Eclipse IDE, NetBeans IDE

MS Office Suite: PPT, Excel, Word, Power BI

PROJECTS

Project 1: Java Full Stack Development Project

Project Title: Government Social Security Administration | PMJJBY | 2025

Developed a Java Full Stack application based on the PMJJBY scheme. The system facilitates integration between banks and insurance providers for social security enrolment and fund management of customers.

Programming Languages Used: Java, JavaScript

IDE Used: Visual Studio Code, Eclipse IDE

Web Technologies and Frameworks: React.js, SpringBoot, BootStrap, HTML, CSS

Database Used: MySQL

Github Link: <https://github.com/Richa-Rastogi25>

Project 2: Java

Project Title: Banking Application | Alpha Bank | 2025

Designed and developed a banking system using Java to perform core operations. Implemented full CRUD functionality for managing customer and account data.

Technology Used: Eclipse IDEs

Github Link: <https://github.com/Richa-Rastogi25>

Project 3: Database Management System

Project Title: Alpha Bank Database | 2025

Designed and implemented the database architecture for a banking system using MySQL. Handled data storage, retrieval, and management with optimized SQL queries and relational schema design.

Database Used: MySQL

Github Link: <https://github.com/Richa-Rastogi25>
